

Title :

SM, stepdaughter of Daniel Ambash (19 years old) admits perjury against her stepfather

25/9/11

My name is SM.XXX XXX (Ambash). I'm speaking to all of you, from hart to hart, and to anyone who could be interested in my letter.

I am on the list of the four prosecution witnesses against Daniel Ambash (my stepfather).

I grew up for about fourteen years in Daniel's home, they became my family and today I am very sad that the « YAMAR » police department forced me, using force and threats, to testify against him. They (the police) said very hard things would happen to me if I did not testify against him.

I am aware they didn't just use me, but also my little brother B.XXX., they also had him testify and, he told me, they also threatened him, saying that if he did not witness for the prosecution, he would be accused of raping our sister.

Daniel brought us up, all these years, in a warm house, full of love.

When my brother B.XXX told me about it and I saw, on Facebook, S...(XXX)Ambash's video (she also is a prosecution witness), video were she discribes, like us, the pressure and the threats she suffered, it gave me the strength to open my hart and to tell you my pain so you could understand us.

Because the police wanted, with all their power, to fabricate a damning file and to show that he was at the hed of a sect ; that's why he had several wives. All people who have that way of life, they try to put them in jail with damning accusations.

I'm talking for all of us. We are aware that all what they tried to force us to say are lies and in fact, during the police interrogation, they did'nt let us say what we wanted. They asked us « isn't it true Daniel did this ? and did that ? » and if I didn't say « yes », they would lock me up into a Rehabilitation Center. And the next day, they did the same thing, till they got what they wanted.

At the beginning they came to offer bribe to me, and they bought me what I wanted. After they used shouts and threats.

(I'm writing it in short but I want to cry while I write. I remember how cruel the police was, they used their position of power to transgress the law.)

Ultimately, under heavy threats upon us, the police got very heavy indictments.

I declare that everything written in the indictments and for all the testimonies, they used my name and wrote in my place, I didn't write or say.

Furthermore, the fourth prosecution witness is a women who works for the police and, as far as I know, she's taking drugs.
